Finalizing the 3 DigiCulTS tools

Quick-Check

The **DigiCulTS Quick Check** is a tool to objectively assess 12 digital competencies and consists of three parts:

- **Company's Snapshot:** Where is your company in the digitization process?
- **Self-Assessment:** How do you assess your digital skills?
- **Competency Assessment:** Here you can finally prove at what level you are.

All questions have been developed and the programmers have developed a first version, which is currently being tested internally by all the partners. Take a sneak peak!

Online Course

All partners have translated the Modules about digitalization and digital transformation and culture in European SMEs. The second module about online identity and trust is being finalized. These contents will soon be available in the different partner languages!

eLibrary

All partners have gathered more than 300 Open Educational Resources in five languages (English, German, Polish, Greek and Spanish). This library will link to the quick-check and will contain resources from external sources that will help SMEs to learn more about the 12 competences that are more important for them.

Welcome to the DigiCulTS eLibrary

Search

Here you can find a compilation of Online Resources from external sources. You can go through the library by clicking on the different categories or, if you have something specific in mind, use the search box.
